Product discontinuation

Dear Customer,

Although product lifetime and delivery period at ams AG are longer than at many other suppliers in the semiconductors industry we are sorry to announce that further production of the devices **listed on page 2** cannot be supported any longer.

Reason for that is that the total demand for products has declined to such a level that an economic production can no longer be warranted. We therefore ask for your kind cooperation in the phasing out of the product.

To make the phase out as convenient as possible for you, we are pleased to offer the following conditions:

- Last possible order placement: **31th October 2018**
- Last shipment: **30th April 2019**
- Minimum order quantity: 1 production lot or multiples thereof

Due to possible yield variances a quantity deviation of +/- 10% has to be accepted by the customer for the last time buy. You will find more detailed information re minimum order quantities on page 2.

For any further questions (e.g. definition of an EOL agreement) please feel free to contact me at any time.

Best regards,

A handwritten signature in black ink, appearing to read 'M. Pflieger'.

Michael Pflieger,
Senior Director Operations
Image Sensor Solutions
