Product discontinuation

Dear Customer,

Although product lifetime and delivery period at ams AG are longer than at many other suppliers in the semiconductors industry, we are sorry to announce that further production of

“DR16K3.5_Invar_B&W_v5 FT SE” (**ordering code: 301100002**)

cannot be supported any longer.

Reason for that is that the underlying image sensor packaging technology is not compatible with ams AG capabilities and production can no longer be warranted.

As a replacement we can offer the following product going forward:

“DR16K3.5_Invar_B&W_v4 FT SE” (**ordering code: 301100004**)

This product is mechanically directly compatible and offers the same resolution and higher operating speed at a more standard technology. Datasheet can be found online on ams AG website and samples are available upon request.

For any further questions (e.g. definition of an EOL agreement) please feel free to contact our customer support team at any time.
