Product discontinuation

Dear Customer,

We herewith notify you that further production of the products listed below cannot be supported. The corresponding replacement products are listed in the column "Replacement Parts".

The reasons being that the replacement paint APM 237983, stated on PCN24-2019, failed the cytotoxicity test and therefore is not suitable for the product application. Given the low volume demand, ams AG will not pursue a new paint solution and consequent product re-qualification.

Please be informed that the discontinuation of the product will be implemented with immediate effect.
