PCN54-2020 – Capacitor change for ams Dragster

Dear Customer,

Please be informed that the MLCC capacitors used on the Dragster Keyence PCBs will be EOL. Thus, ams AG plans to implement an alternative MLCC, in partnership with assembly sub-contractor Focuz Manufacturing Co, LTD.

ams AG have assured that the new alternative will keep the same ratings and will not change the current specifications for the final product.

Implementation Schedule

ams AG plans to implement the change by Q2/2021.

The following products will be affected

Material Part Number	Material Description
301090008	DR4K3.5_Keyence_JST_v1 FT SE
301250010	DR8K3.5_Keyence_JST_v1 FT SE
301740010	DR2K7_Keyence_JST_v1 FT SE

Please be advised that unless ams receive your written refusal concerning this change notification within 30 days, the change notification shall be deemed accepted.

If you do have further questions, please do not hesitate to contact ams team at any time.

Best regards,
