PCN03-2021 – PCB layout change for ams Dragster

Dear Customer,

To ensure the continuous improvement of our Dragster product family, please be informed that ams AG plans to update the copper surface layout of the PCBs to increase the solder mask adhesion.

ams AG have assured that this change does not affect the product functionality and reliability neither will it change the current specifications for the final product.

Implementation Schedule

ams AG plans to implement the change as soon as possible for the new material at the PCB supplier WIP.

The following products will be affected

Material Part Number	Material Description
301090008	DR4K3.5_Keyence_JST_v1 FT SE
301740010	DR2K7_Keyence_JST_v1 FT SE

Please be advised that unless ams receive your written refusal concerning this change notification within 30 days, the change notification shall be deemed accepted.

If you do have further questions, please do not hesitate to contact ams team at any time.

Best regards,

A handwritten signature in black ink, appearing to read 'Peter Crabbe', with a stylized flourish at the end.
