PCN86-2021 – New solder Mask on NanEye 2D Flex Connector

Dear Customer,

Please be informed that the current solder mask used on the NanEye 2D Flex connector is EoL and cannot be pursued any longer. Due to this reason, our supplier have qualified a suitable replacement which samples can be provided upon request.

ams-OSRAM AG have assured that the new material will not change the current specifications for the final product.

Implementation Plan

ams-OSRAM AG plans to implement this change as soon as the current stocks are depleted with an estimated date of Jan. 2022, according to current forecast and orders.

The following products will be affected

Material Part Number	Material Description
302630003	NE2D_RGB_FOV120_F2.8_2.4mCH FT SE

Please note that ams will respect the 120 days notification period. To avoid any disruptions in the supply, ams requires your approval as soon as possible. The latest date that we need your approval is February 17, 2022.

If you do have further questions, please do not hesitate to contact ams-OSRAM team at any time.

Best regards,

Peter Crabbe
ams-OSRAM AG
Director Operations CIS
