Change Notification: Move of Test & Logistics from Nuremberg to Focuz

Dear Customer,

ams AG is pleased to inform you about the upcoming changes on the 4LS products.

ams AG will move the test & logistics activities from the Nuremberg site to subcontractor Focuz Manufacturing in Thailand.

This will involve the following detailed changes:

- ams final products will be shipped directly from Focuz to the customer.
- The outside packing, inside packing and label may change.
- A new tester will be placed at Focuz, which will be the new test location.

Impact on product
No impact on product. No changes in terms of form, fit, function, quality or reliability. As the same BOM parts (from the same vendor) and processes are used, the assembly process does not change.

Impact on delivery schedule
No impact on delivery schedule. The shipments out of Nuremberg will continue until the new supply chain is released.

Impact on packing & shipment
The outside packing, inside packing and label may change. The ship-out location will change from ams Nuremberg to Focuz Manufacturing.
The following products will be affected

<table>
<thead>
<tr>
<th>material ID</th>
<th>product description</th>
</tr>
</thead>
<tbody>
<tr>
<td>507830006</td>
<td>4LS15k-5MIA FT SE</td>
</tr>
<tr>
<td>508030006</td>
<td>4LS15k-5CIA FT SE</td>
</tr>
<tr>
<td>508070005</td>
<td>4LS10k-5MIA FT SE</td>
</tr>
<tr>
<td>508080005</td>
<td>4LS10k-5CIA FT SE</td>
</tr>
</tbody>
</table>

**Traceability**

The ams ERP system assures the traceability by batch ID.

**Implementation date and schedule**

ams expects to release those changes by the end of June 2019. Individual changes will be implemented when ready without further notification.

Please be advised that this is not a normal PCN with possibility to object. It is rather a mere Change Notification, purely for informative purposes, as a courtesy, without any obligation to do so, since the parts are still in Engineering.

If you do have further questions, please do not hesitate to contact our customer support team at any time.

Best regards,

Peter Crabbe
ams AG
Director Operations CIS
