PCN13-2018 (New Wafer Sort Test Facility)

Dear Customer,

ams AG is pleased to inform you that a New Wafer Sort Test Facility has been opened in Asia. It is located in Tampines, Singapore and will enable us to support the ever increasing demand in today's dynamic market environment.

Our business address is:

ams Sensors Asia Pte. Ltd. (Singapore Tampines)
JTC Nanopace
11 Tampines Industrial Crescent
Singapore 528606

This new test site is not only intended to increase the electrical testing capacity of ams AG but will also show a positive effect in the supply chain management of the products.
Other Advantages:

The new test facility is also strategically situated near to ams AG’s key assembly partners in Asia, both in wafer fabrication and manufacturing.

Key Partners Located in Asia

a) TSMC (Taiwan)
b) Amkor (Philippines and Korea)
c) ASE (Taiwan and Korea)
d) AIT (Indonesia)
e) Carsem (Malaysia)

Strategy:

1. Teams of test and quality experts were formed at ams AG (Austria) that will support, provide comprehensive trainings and be counterparts of the start-up team in Singapore.
2. The test equipment (e.g. probers) will all be identical to ams AG (Austria).
3. Specifications, product and process controls, trip limits, cut-off limits, acceptance criteria, including product packaging will be applied and implemented to all the products that will be tested in this new ams AG test site and will all be identical to ams AG (Austria).
4. Same specific device document (such as C-spec) will be used by ams Sensors Asia Pte. Ltd. (Singapore) except for the change in the test site information.

Impact on Product:

No impact on product is anticipated as there will be no changes in terms of form, fit and function.
