Subject: End of Life R13MP

Dear valuable customer,

We regret to inform you that the product "R13MP" can not be supported any more.
The multi-protocol 13.56 MHz RFID reader IC R13MP/TRF7960 was developed by IDS for Texas Instruments and sold on the market by both companies. It was offered by IDS with the marking R13MP and by TI with the marking TRF7960. After the acquisition of IDS by ams AG, the R13MP was discontinued from Texas Instrument. However, the TRF7960 is available from TI and is fully plug-in compatible with the R13MP.

With kind regards,

A handwritten signature in blue ink that reads 'Helmut Pessl'.
