Product discontinuation

Dear customer,

Although product lifetime and delivery period at ams AG are longer than at many other suppliers in the semiconductors industry we are sorry to announce that further testing of

AS3525C

on the Fusion HF Test System cannot be supported any longer.

Reason for that is that the total demand for products on this test system has declined to such a level that an economic production can no longer be warranted. We therefore ask for your kind cooperation in the phasing out of the product. To make the phase out as convenient as possible for you, we are pleased to offer the following conditions:

- Last possible order placement: July 31, 2016
- Last shipment: December 31, 2016
- Minimum order quantity: 1 production lot (= appr. 20k pcs., or multiples thereof)
Due to possible yield variances a quantity deviation of +/- 10% has to be accepted by the customer for the last time buy.

For any further questions (e.g. definition of an EOL agreement, possibility of transfer of the product to any other test system) please feel free to contact me at any time.

Best regards,

A handwritten signature in black ink, appearing to read 'D. Gleispach'.
